

## **Privacy Notice for clinical trial patient recruitment**

The purpose of this notice is to inform you what kind of personal data we collect from you and what we do with it in the context of our clinical patient recruitment activities.

### **Who is responsible for the processing?**

The Controller of your personal data is MorphoSys AG, Semmelweisstr. 7, 82152 Planegg, Germany (in the following “we”, “us”).

You can reach our data protection officer at the above address or the following email address: [datenschutz@morphosys.com](mailto:datenschutz@morphosys.com)

### **Which of your personal data do we use?**

The personal data processed include your full name, address, communication data (phone, email address) as well as the information that you are interested in one of the clinical trials sponsored by us.

### **What is the purpose and the legal basis for processing your personal data?**

We will process your personal data for clinical trial patient recruitment activities. The purpose is to contact you to inform you about clinical trials sponsored by us which we believe you are interested in. Also, we process your data to connect you with the study site closest to where you live. The respective study site will reach out to you for evaluation of your eligibility to participate in the clinical trial and will explain the possible benefits and risks of the study. There is no obligation and participation in the study is voluntary. The legal basis for the use of your personal data for the above purposes is your legitimate interest according to Art. 6 (1) lit. f GDPR. If you are successfully referred for a clinical trial, you will be separately asked for your consent and informed about how we will be using your data for the purpose of the clinical trial.

### **Who will have access to your personal data?**

Your personal data will be processed by a clinical research organization (“**CRO**”) that is engaged by us for the patient recruitment activities and that is acting as our data processor. We will not receive any of your personal data and only process your personal data through CRO. Your personal data will be forwarded by CRO to the study team at the study site closest to where you live.

### **Where is your data used or stored?**

Please note that some CRO may be located in or store your personal data in countries outside the European Union (“**EU**”) and the European Economic Area (“**EEA**”).

Countries outside the EU and EEA handle the protection of personal data differently than countries within the EU and EEA. There is currently no decision by the EU Commission that these third countries generally provide an adequate level of data protection.

We have therefore taken special measures to ensure that your data is processed in the third countries as securely as within the EU and the EEA. With CROs in third countries, we conclude standard data protection clauses provided by the EU Commission. These clauses provide appropriate safeguards for the protection of your data with third country CROs.

### **How long your personal data will be stored?**

We, through CRO, will not store or retain your personal data any longer than is necessary for the purposes for which the personal data is processed. CRO will retain your personal data for a maximum of 6 months after the last contact with you. If you are successfully referred for a clinical trial, you will be separately informed about how long we will be processing your data for the purpose of the clinical trial.

### **How can you exercise your rights regarding your personal data?**

Within the limits set by statutory requirements, you can exercise your rights of access to data, objection, correction, erasure, restriction of data processing, as well as data portability in accordance with the applicable laws and regulations. You can exercise your rights by contacting us at MorphoSys AG, Semmelweisstr.7, 82152 Planegg, Germany or by sending an e-mail to our data protection officer at [datenschutz@morphosys.com](mailto:datenschutz@morphosys.com),

If you are based in the EU, you have the right to lodge a complaint to the supervisory authority. You will find your national data protection authorities and their contact details at [http://ec.europa.eu/justice/data-protection/article-29/structure/data-protection-authorities/index\\_en.htm](http://ec.europa.eu/justice/data-protection/article-29/structure/data-protection-authorities/index_en.htm)
